Information and Special Request for Parents

Please report any temporary financial situations that may hinder your ability to pay your co-payment to the provider. [EX. Major medical bills or major car repairs]

Applicants will select and arrange service for their own childcare provider. We do have a list of licensed and/or tribally approved providers in your area.

Should you have any complaint against the provider, they must be in written form, signed and dated by the parent making the complaint.

Any Provider must provide that parents will be welcome in the center or home at all times.

A co-payment is required of each parent/guardian and is paid directly to the provider.

When changing providers all payments and co-payments must be paid in full before the change can be made.
